

Curriculum Vitae:

Alberto Baldasseroni

CeRIMP, Regional Centre for Injuries and Occupational Diseases, Tuscany Region

E-mail: alberto.baldasseroni@uslcentro.toscana.it

Educational background:

1986-1989 Three years in Biometric specialization, University of Milan

1981-1985 Specialization in Occupational Medicine University of Milan Clinica del Lavoro

1974-1979 University of Rome, Faculty of Medicine

Professional experiences:

2005-present Chief Operative Officer of CeRIMP

2000-2005 Epidemiology Department of Local Health Unit of Florence

1990-1999 Occupational Preventive Service of Local Health Unit of Florence.

1985-1989 Occupational Preventive Service of Local Health Unit of Desio (Milan)

1980-1984 Epidemiology Unit - Cancer National Institute, Milan

My main work area is the occupational epidemiology and medicine.

HEAT-SHIELD specific informations:

In the HEAT-SHIELD project, my specific task will be acting as facilitator of involvement of stakeholders into the specific field of heat problems at work. I can rely on a long experience in the occupational medicine field in order to build up a national network of researchers and practitioners as well as employers and employees to put in practice the outcomes of the project. Furthermore, I will contribute to carry on field studies that are especially needed in Italy, and in general in the Mediterranean countries, involved in the project (i.e. Greece, Italy, Spain, Cyprus).
